Dear Mr. Wade:

I am writing to express our delight and pleasure with the work your crew did at our pool area (Chastain Lakes subdivision) earlier this month.

As I indicated to you previously, we have been disappointed time and again with fly-by-night contractors that do not meet our expectations—or sometimes, do not even show up at all.

We were *very pleased* with the professionalism displayed by Sean Baxter and the quick service performed by his crew in fixing our lighting circuits. As you know, we have a very active swim team and the service performed by Wade Electric enabled our team competition to proceed as scheduled with significantly improved (and reliable) lighting.

In closing, thanks for a job well done. We fully intend to utilize your company again for our electrical needs. We look forward to working with you further.

Very truly yours,
